To whom it may concern

18 June 2011

Dear Sir / Madam,

PROFESSIONAL REFERENCE FOR MR MICHAEL O'HARA

I have had the pleasure of working with Mr O'Hara for the past 12 months as his Commanding Officer. Throughout this period he has successfully risen to every challenge the Royal Navy has given him and I could not have asked for a more capable Deputy Weapons Engineering Officer.

His professional ability and knowledge are faultless, and I have been able to rely on him without reserve to have the Ship's communications systems and computing networks available to the highest standard at all times. Technically adept, he analyses problems methodically to locate the route of the problem, ensuring that no aspect is overlooked, before deciding on and sourcing the best rectification plan. Beyond his unreserved ability to localise and repair defects, he is highly respected for routine maintenance, thus ensuring the continuous availability of operationally essential equipment. Well spoken and professional, he is able to explain all issues in both technical and laymen's terms, thus ensuring that all parties are aware of limitations and requirements.

One of Mr O'Hara's key strengths is his boundless enthusiasm and energy, which permeates through his team and the entire organisation. He leads his subordinates well, improving their technical ability to ensure they achieve their full potential. He also actively seeks additional responsibility, inspiring those around him and can always be relied upon to deliver.

Mr O'Hara is diligent, professional, effective and reliable, and I have been very fortunate to have him on my team. I would strongly recommend him for any technical, high-tempo or demanding roles, as I know he would deliver with ease.

N K MARRIOTT
Lieutenant Commander Royal Navy
Commanding Officer

UNIVERSITY of PORTSMOUTH

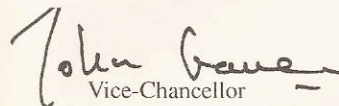

Michael James O'Hara

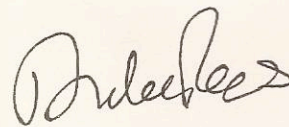

has been awarded the

**Foundation Degree of Engineering in
ELECTRONIC ENGINEERING**

having followed a programme of study approved by Academic Council
delivered under a collaborative arrangement with
The Maritime Warfare School in HMS Collingwood
